

I listen to K-LOVE radio stn via FM translator service. I know many people in my community are blessed by this station and enjoy the non-commercial music and news from a Christian perspective. I would NOT like to see K-LOVE and other translator stations displaced by an LPFM broadcast. Please do not allow the LPFM stations to take priority over current FM translator services. If our community, and others like it across the country, lost the services provided by K-LOVE, it would be a real shame! Thank you.
